TALENT

Recruit. Develop. Transform.

ABOUT

TALENT+ is the brainchild of Camara C. Lee, who founded the company in June 2020 in St. Kitts and Nevis. Camara recognised a need for independent, expert career advice for job seekers as well as human resource support services for businesses. TALENT+ seeks to bridge this gap by offering an array of services to both job seekers and businesses.

OUR VALUE PROPOSITION

We help candidates secure employment opportunities by portraying their best and truest selves through professional résumé editing and interview preparation services.

Similarly, we strive to develop a talent pipeline to meet the needs of employers for short-notice vacancies, temporary support or full-time roles, and long-term, talent acquisition strategies. Our unique 360-degree approach means that the people you are looking for are already talking to us.

As your strategic HR business partner, we also provide unparalleled support services to align your organisation with HR best practices, improving workplace productivity and unlocking long-term firm value.

OUR PLATFORM

TALENT+ operates a first of its kind applicant tracking platform, in St. Kitts and Nevis. This allows businesses to connect with applicants:

- Post jobs directly to the candidate job portal
- Direct access via our client portal
- Review applicants
- Perform candidate screening questionnaires
- Track applicants throughout the recruitment process
- Schedule interviews
